

A. Anterior view

B. Lateral view

C. Superior view

D. Cranial base: inferior view

C. Foramina of cranial base: superior view

A. Anterior (palmar) view

B. Posterior (dorsal) view

C. Biomechanics of forearm

Tuberosity of radius useful indicator of degree of pronation or supination of radius

- A. In full supination, tuberosity directed toward ulna
- B. In about 40° supination, tuberosity primarily posterior
- C. In neutral position, tuberosity directly posterior
- D. In full pronation, tuberosity directed laterally

A. Superficial layer

B. Deep layer
