

Johnny Harris

#1 Memorize common words

#2 Start talking early

#3 Make it fun

#4 The Grammar

The map

Goal: Fluent

Mathematical

Painful

Not funny

Very long time

Not so visible

Hard

Counter-intuitive

Should be last goal

Communication

Non-mathematical

Painless

Funny

Relative short time

Visible progress

Easier

Intuitive learning

Should be first goal

Tim Ferris

List of 12 ~~words~~ phrases, complete phrases including past, passive form, subject, object, pronouns, etc...

↓
Giuseppe Mezzofanti. Lord's prayer in each language

Nathaniel Drew

Solar system

1. centre = most frequency

2. 80/20 20% = 10% most common + 10% personalization

Parts

#1 Top 1000 words

#2 The Glue → to create full sentences

#3 Create a connection → Figo/Fico ≈ figus ≈ the tree xd

#4 Make mistakes aka start talking early

#5 Enter the Bubble → It means consume a lot of content in that language

Tricks to memorize faster and better

- *to repeat one thing and the reverse (Thomas Frank)
- the spaced repetition system
- write down with pen and paper
- record on audio what was wrote to listen to it later, on the bus, during workouts, walks...
- *study the same twice before jumping on the next one (How to win friends and influence people)
